

One Stop Shopping at Durham Ranch

- Females developed through the use of studied genetic parameters, capitalizing on select Durham Ranch cow families.
- Progeny from proven local, state and national show winners.
- Bulls that will improve your cow herd and add performance along with desirable muscle pattern and carcass quality.
- An extensive embryo and AI program aimed at producing the best genetics from the best cattle.
- Performance data on birth, weaning and yearling weights and ultrasound carcass information are provided by participation in the AHA TPR program and in the Oklahoma Beef, Inc. (OBI) Bull-Test Program.
- Showring accomplishments provide a comparison of our breeding program with other breeding programs across the nation.

Semen available on: STAR Spiridge Boomer 63L • DR JM 63L Pecos 411P
